

Extending HD Video to Mobile Devices

Experience universal video collaboration with true mobility

LifeSize welcomes Mirial to the family. With Mirial, LifeSize now offers a comprehensive portfolio of universal video collaboration solutions, from conference room endpoints and infrastructure to best-in-class desktop, tablet and smartphone video calling software. Mirial extends LifeSize's leadership in open, interoperable video collaboration solutions to anyone, anywhere on nearly any mobile device.

LifeSize[®] ClearSea[™]

LifeSize[®] ClearSea[™] is an enterprise-class client/server solution for desktop and mobile video collaboration. LifeSize ClearSea is open and interoperable; users can seamlessly connect from their desktops or mobile devices to any standards-based video collaboration system or infrastructure solution in seconds. LifeSize ClearSea Server is available as a hardware appliance or virtual machine software and includes a state-of-the-art HD desktop client for PC/Mac and Android/iOS smartphones and tablets.

LifeSize[®] Softphone[™]

LifeSize[®] Softphone[™] is the most advanced stand-alone desktop software for professional quality video collaboration. It has Full HD support, a simple, easy-to-use interface and advanced media encryption, which enable remote and mobile PC and Mac users to work collaboratively in a completely secure environment. LifeSize Softphone is an open and interoperable, standards-based solution that enables HD video collaboration to anyone, anywhere.

There is no better way to experience the Mirial products than to try them yourself for free.
