A SMARTER WAY TO CONNECT THE UNCONNECTED.

Logitech SmartDock Small Room Package for Skype® Room Systems

Microsoft® and Logitech® have collaborated to revolutionize the Skype for Business experience and bring it to every meeting space. This Small Room package is a complete Skype Room solution, including the Logitech SmartDock, Logitech ConferenceCam Connect, and Microsoft Skype Room System.

Transform smaller meeting spaces with a rich, collaborative Skype for Business experience that is simple to use, deploy, and manage. With one-touch join, it is easy to both

project to the display in the room and share to remote participants via their Skype for Business clients on smartphones or laptops. Replace the conference room phone with video and voice conferencing and calling. Additionally, IT Admins can easily deploy and manage the locked-down UWP Skype Meeting app via familiar tools built for Windows 10, such as SCCM and Intune. Simply walk into a conference room and start your meeting with a single touch.

FEATURES AND BENEFITS

- Complete Skype Room System in a single package
- Logitech® SmartDock enables a secure premium AV Control Console with built-in content sharing up to 1080p60
- Logitech ConferenceCam Connect is optimized for teams of 1 to 6, ensuring everyone can see and be seen, and no one misses a word.
- Clear voice pick up with true 360° sound, 12 ft. diameter audio range, plus acoustic echo and noise-cancelling technology
- Skype Meeting experience is optimized for rooms with screen-filling HD video and HD wideband audio
- Leverages existing meeting room equipment including HD displays and projectors

LOGITECH SMARTDOCK

Logitech® SmartDock is an AV Control Console that revolutionizes the Skype® for Business collaboration experience. Simply walk into a conference room and start your meeting with one-touch join.

Designed in partnership with Microsoft®, SmartDock enables expanded I/O for Surface™ Pro 4 that includes support for dual HDMI displays, three USB 3.1 ports and Gigabit Ethernet, allowing the IT administrator to connect recommended devices, such as Logitech® ConferenceCams.

An embedded motion sensor activates the system when anyone enters the room. Content sharing from a laptop is a snap with 1080p60 HDMI input and capture. With the optional extender box, a single 5m cable with HDMI, USB, LAN and power provides a clean and streamlined installation on the conference table.

The pivoting, cast-metal base provides enhanced security for Surface™ Pro 4. The combination of tamper-resistant screws and a Kensington® security slot helps ensure that the tablet is always in place and ready for your meeting.

LOGITECH CONFERENCECAM CONNECT

Logitech ConferenceCam Connect is an all-in-one videoconference solution with HD 1080p video, professional audio, and multi-device connectivity for small group collaboration.

Optimized for workgroups of 1-6 people, the ConferenceCam Connect elevates small group collaboration to the next level.

ConferenceCam Connect offers a generous 90° field of view with digital pan, mechanical tilt, 4x digital Full HD zoom, autofocus and ZEISS® lens certification. With true 360° sound, users can hear and be heard within a 12-foot diameter range while acoustic echo and noise-cancelling technology delivers conversational realism.

A generous 90° field of view and 12 ft. audio range make ConferenceCam Connect a perfect addition to huddle rooms with video meetings of up to 6 people.
