Registering Your Product and Plantronics Software

Visit plantronics.com/productregistration to register your product online so we can provide you with the best service and technical support.
We also recommend that you install the Plantronics software located at plantronics.com/software. With it installed you can:

- Customize your headset and USB adapter settings to your personal preferences
- Automatically manage your PC multimedia so you never miss a call
- Quickly access links to product support and software/firmware upgrade information

Pair to mobile device

1   The first time you power on the headset it begins the pairing process. Put on your headset and you will hear "pairing" and the headset LEDs flash red and blue.

2   Activate Bluetooth on your phone and set it to search for new devices.

    • **iPhone** Settings > Bluetooth > On*

    • **Android** Settings > Bluetooth: On > Scan for devices* **NOTE** *Menus may*

    vary by device.
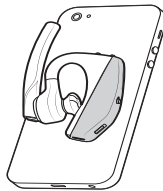

3   Select "PLT V5200 Series."
If necessary, enter four zeros (0000) for the passcode or accept the connection.

Once successfully paired, you hear "pairing successful" and the headset LEDs stop flashing. **NOTE** *Your headset can pair with up to 8 devices but only maintain 2 connections simultaneously; this includes the Bluetooth USB adapter.*

NFC pairing

NFC pairing is an option to pair your phone if there are one or less devices already connected. NFC pairing will not work if there are two devices connected already.

1   Ensure NFC is on and your phone's display is unlocked. (Phones may vary.)

2   With the headset powered on, lay the headset on the back of phone near the NFC tag on phone as shown until NFC pairing completes. If necessary, accept the connection.

Pair another device

1   With the headset powered on press and hold the Call button until you hear "Pairing."

2

While the headset LEDs are flashing blue and red, activate Bluetooth on your phone and set it to search for new devices.

3   Select "PLT V5200 Series."
Once successfully paired, indicator lights stop flashing and you hear "pairing successful."
