

The Asimitel

Omnia Auto-Dial™

Programmable Auto-Dial phone, available in desk or wall version. | 5500 AD & 5501 AD

30 Digit Capacity

Program & store up to a 30 digit number including pauses, in pulse or tone mode. When the user lifts the handset the pre-programmed number speed-dials each time.

Remotely Programmable

Easily programs using any touch-tone phone. With the aid of a helper, program the Omnia Auto-Dial from anywhere in the world!

5501 AD

5500 AD

Line Powered

All units require NO batteries or AC. Even if the phone is unplugged after programming, internal memory remembers everything.

Custom Graphics

Take advantage and customize the phone's Faceplate with anything from directions/instructions to full-color images and company logos.

Volume Control

ADA Compliant & Hearing-Aid Compatible (HAC) 3-Step Volume Control Handset.
