- Touchscreen Center of Room Control for joining meetings in one touch
- Supports small and medium conference rooms up to 12 people
- U.S. SKU: 3ZH60UT#ABA

HP Elite Slice G2 – Audio Ready with Microsoft Teams Rooms

- Purpose-built Microsoft Teams Rooms system with touch display, compute, HDMI ingest, VESA mount, and Microsoft Teams Rooms image in one bundle
- Pairs with compatible third-party audio/video components
- Supports any room size: small, medium, large, or custom/XL
- Five-meter cable option to allow HP Elite Slice G2 Audio Ready to be mounted behind a display
- U.S. SKU: 5LG87UT#ABA

Microsoft Teams Rooms hardware and software

One-touch collaboration with crisp, clear audio and video for any room size. Stress free—worry free.

End-user benefits

- **Familiar user experience and ease of use**

The Center of Room Control (CoRC), with integrated auto sensors and one-touch join, allow you to start meetings quickly. The CoRC shows the calendar for that room, as well as ad-hoc call or conference capabilities. This solution is built on the familiar Microsoft Teams and Skype for Business applications that employees use at their desks. However, it goes beyond an end-user feature set and enables fully scalable conferencing features for users whether they are in the room or working remotely.

- **Easy content sharing**

HDMI ingest enables people who are not on your network to share content (many companies do not want their visitors accessing their network). Wireless content sharing and Bluetooth® proximity join are also supported. Whiteboard sharing is enabled and aids in collaboration with Microsoft Teams Rooms.

- **Great audio and video experience**

Microsoft Teams-certified built-in audio or external audio peripherals aid in clarity. Participants can be seen and heard clearly with video camera enablement.

- **Flexible and extensible hardware and software feature set**

The HP Elite Slice G2 with Microsoft Teams Rooms is available in multiple models to support any room size. The meeting experience is similar from room to room, allowing end-users to take the same steps to start and control meetings. Designed for huddle, small, medium, large, and custom conference rooms, it supports drop-down microphones, high-end camera controls, and more.

ITDM benefits

- Happy end users
- Familiar end-user interface means easier training, adoption, and provision
- Secure from the BIOS level with HP Sure Start G3—important for a standalone device
- Built on Windows 10 IoT, so it can be managed like a PC with all devices in one shared view (integrates with management tools such as Microsoft System Center Configuration Manager and analytics drawn from HP DaaS)
- Easy installation and secure cable and port management ensure cables are always connected and keep a clean look

Why HP and Microsoft Teams Rooms?

Microsoft Teams is a multilayered ecosystem built for collaboration, and it integrates well with HP Elite Slice G2. The solution enables workgroups to communicate effectively and work with confidence.

Certified for Microsoft Teams

- Close integration with Microsoft Teams
- Built-in support to join and dial-in/out of Microsoft Teams and Skype for Business meetings
- Works with optional certified third-party audio/video peripherals including cameras, microphones, speakers, and center-of-room consoles (sold separately)
- Tested for highest quality audio and video
- Supported by Microsoft and HP partners
- Configurations available for every room size—huddle, small, medium, large, and custom conference rooms
- Supports periodic Microsoft Teams Rooms feature upgrades

Microsoft Teams

The hub for teamwork in Microsoft Office 365

- Communicate through scheduled and ad hoc meetings, calls, wired and wireless content sharing, whiteboard sharing, and conference controls
- Collaborate with deeply integrated Office 365 apps
- Customize and extend with third-party apps, processes, and devices
- Work with confidence with enterprise-level security, compliance, and manageability

The HP advantage

HP offers a platform with security and manageability, engineered for enterprise-class performance, with the added benefits of:

- Global reach and services and support⁴
- Fully tested and certified solutions
- Deep partnership with Microsoft in product development and support
- Scalable hardware with an extensive collaboration portfolio

Visit www.unifiedcommunications.com for more information.

1. Offer expires October 31, 2020.

2. Promotion applies to two HP Microsoft Teams Rooms SKUs only, 3ZH60UT#ABA and 5LG87UT#ABA, and is available only in the U.S.

3. 90-day virtual services are provided by a third party and only apply to products purchased with the promotion.

4. HP services are sold separately. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, visit hp.com/go/cpc. HP services are governed by the applicable HP terms and conditions of service provided or indicated to the customer at the time of purchase. Customers may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP limited warranty provided with your HP product.
